A NEW FIRM.

By the announcement in another column it Will be seen that a partnership has been formed by Messrs. T. W. Stanland and F. K. Huger as naval stores brokers. The well-known reputation of both these gentlemen in commercial circles, and the growing importance of this trade in Charleston, should secure to the new firm a highly prosperous mercantile career. Their office has been established in the new building, No. 96 East Bay, where they have ample facilities for the transaction of all business entrusted to their management.

The following letter, which has been sent from the secretary of the Augusta Cotton Exchange to the secretary of the Savannah Exchange, shows what is thought in Augusta of "low crop" figures: AUGUSTA COTTON EXCHANGE.

ASLEEP ON THE TRACK.

On Saturday last about noon two colored souths, named William Middleton and Robert Small, aged respectively fourteen and seventeen years, and employed as section hands at Rantowle's Station, on the Savannah and Charleston Railroad, took their mid-day lunch, and seating themselves on the railroad track, began to discuss it. Presently both of them fell asleep in their perilous position, and while nodding, "gently napping," the down freight train came thundering along. Unconsclous of the danger, they slept on while the locomotive came upon them, and they were thrown aside by the cowcatcher. Middleton escaped with a slight wound on the scalp, but Small, his companion, sustained two severe cuts on his face, besides two fingers on the left hand being terribly larcerated. They were brought to the City Hospital, where the cendition of Small's fingers necessitated their amputation. Both lads are now doing well.

SUNDAY-SCHOOL CELEBRATION.

The quarterly celebration of the Sunday school connected with the First Baptist Church came off yesterday afternoon. The congregation was large and highly delighted with the exercises. The singing was unusually fine, and reflected great credit upon the leader who was able to train so many voices to such accurate time. Prayer was offered by the Rev. Mr. Walters, of Anderson, and an address delivered by the pastor, Rev. L. H. Shuck, on the subject of "Bible Knowledge," which he interspersed with many pleasing anecdotes and incidents, and which highly delighted the children. Mr. S. Hyde, the superintendent, steady increase in the numbers of both teachers open to the unlimited use of subscribers read the quarterly report, which exhibited a and scholars. For the past few Sabbaths the and those recommended by subscribers every average attendance had been over one hundred. Of the beautiful hymns sung "Peace on Earth" and "Anywhere with Jesus," were particularly impressive, although all were well rendered. A collection was taken up in or consulted at home. With all these advanald of the library of the Sunday-school. On the whole, the exercises were of a highly interesting character.

THE FLORELLA MUTINY.

Three of the Seamen Honorably Discharged, and One Held for Trial. John Green, Walter Maxwell, Charles F. Sylvester and George Wiesson, the sailors of the ship Florella, who were lodged in jail about a week ago, on an affidavit of Captain Mears, the master of the ship, for examination on a charge of mutiny, were carried before the United States commissioner on Saturday. The cook, the steward and several other members of the ship's crew were produced by the captain as witnesses, and examined by the wild ducks, which can be bought at \$1 25 per commissioner. The accused sallors were represented by Mr. George B. Walker, of the firm of Walker & Bacot, who was present and cross-examined the witnesses. The testimony elicited was, substantially, that on the 8th of February last, at midnight, the man Charles F. Sylvester was heard to say that he would "go aft and kill the captain and mate;" that he went to the cable of those officers with the avowed intention of executing his threat; that he returned after a little while to where the rest of the ship's crew were collected and said that he had not been able for some reason or other to carry his threat into execution, but that if the crew would say charge, charge it should be. The rest of the crew refusing to second his murderous intent, he abstained from any further attempt. The next morning the cook informed the mate of the ocurrence of the previous night, when the captain and the latter arranged the plan for capturing the prisoners, which has already been fully detailed in THE NEWS. Against Green, Maxwell and Wiesson not a shadow of evidence was adduced, and they were, therefore, honorably discharged. Indeed, one of the witnesses named James Butler testified that Maxwell had remarked at the time that Sylvester proposed to kill the captain and mate, that the captain must be allowed to take the ship safely home. Sylvester was recommitted to jail for trial before the United States Court in April, on the charges preferred against him. Mr. Walker gave notice of his intention to

prosecute Captain Mears for false imprison-

ment of the three men who were discharged.

THE APPRENTICES' LIBRARY.

Marked Success of the Revival of the

ship.

Society-The Advantages of Member-

The recent efforts of the friends of the Ap

prentices' Library Association to revive this

valuable institution have been attended with

marked success, and as the advantages now

offered to subscribers by the liberal policy of

the association are becoming more generally

understood, its members are being rapidly

swelled by the accession at each meeting of

scores of new members who appreciate the

rare opportunity now afforded of securing for

themselves and their children at a merely

nominal cost, the unlimited use of the exten-

sive and varied collection of books compris-

ing the joint library of the Apprentices' Asso-

This library now comprises nearly sixteen

thousand volumes, of which about fifteen

thousand belong to the Charleston Library

Society, and between eight and nine hundred

have been purchased recently by the younger

organization. They include every depart-

ment of literature, from the latest works of

romance, poetry, adventure and travels,

through the whole range of human know

ledge up to the heavier times of science and

volumes of classic lore. The new collection

of books added by the Apprentices' Society

contains the freshest current literature of the

day, with all the latest novels, magazines and

other popular works, and the library of the

old society includes everything else necessary

to complete a library of universal reference,

being especially rich in the department of

history, poety and classics. The building

and the rooms in which they are contained

are spacious, comfortable and quiet; they are

week day from 10 A. M. to 3 P. M., and on

Wednesday and Saturday evenings until 10

P. M., and any of the books of the library

may also be taken from the library to be read

tages the price of a year's subscription to the

library is only \$2.50, and this gives the sub-

scriber, in addition to the use of the library

ace himself, the right of extending its privi-

leges to as many minors as he may choose to

recommend. Thus a gentleman having a

family of two or three boys, with perhaps half

a dozen juvenile friends in whose literary cul-

ture and innocent amusement he takes an

interest, is enabled, by the small annual pay

ment of \$2 50, to secure for bimself and each

of his proteges the unlimited use and enjoy-

reading matter.

country (with the exception of the Free

millionaires for their founders and are in the

constant receipt of princely bequests) any

library which extends its privilges to the whole

community, adults and minors, rich and

poor, upon such liberal terms as are now es-

tablished by this society. The effect of this

liberal policy in popularizing literature and dif-

fusing the benefits of this library throughout

the whole community cannot but prove bene-

ficial in the highest degree; and the gentle-

acted upon at the next meeting of the trus-

sideration of the application follows, almost

as a matter of course. Upon being notified

A TRIUMPHANT RECORD .- In glancing back at the history of proprietary medicines in this country, it becomes at once evident that Hostetter's Stomach Bitters has been the most successful of them all. The record of its triumphs covers a period of about twenty years, and during that time it has probably restored to health and vigor a greater number of debilitated invalids then all other tonics and alteratives combined. The amount of disease and suffering that has been prevented by its extensive use as a preventive medicine is, of course, unascertainable; but it is a well known and undisputed fact that the malaria which generates periodic fevers and many other disressing and dangerous disorders, seldom if ever produced any injurious effect upon systems that have been fortified in advance by a course of this invaluable vegetable tonic. mch26-wfmDaW

Coughs .- A medicinal preparation in the form of a lozenge is the most convenient. "Brown's Bronchial Troches" allay irritation which induces coughing, giving relief in Bronchitis, Hoarseness, Influenza, Consumptive and Asthmatic complaints. Dowie, Moise & Davis, Agents. nov20-wim3

CHARLESTON MANUFACTURES. - The development of manufactures of various kinds is fast becoming a principal source of improvement and revenue to Charleston. High in the list is the manufactory of Mr. P. P. Toale. Established immediately after the war, it has been uniformly and increasingly successful, and now affords unrivalled facilities for the manufacture of doors, sashes, blinds or anything else in his line.
